

Intact Employees Among the Top Again

The Intact Investment Management team soars with top marks in the 2018/2019 Brendan Wood International Canadian TopGuns.

A panel of over 450 Analysts, Sales Executives and Traders selected their most respected TopGun investment teams and individuals. The TopGun panel singles out individual investment professionals as being the most accomplished professionals in the Canadian investment industry. Out of a field of 900+ candidates, only 97 were selected for the TopGun designation.

Among the top are our colleagues in Investment Management:

- Jean-Mathieu Gareau
- Pierre-Yves Fortin
- Simon Vallieres
- Stephane Desroches
- Vincent Paquet (Platinum Class)

The Intact Investment Management team was selected as one of ten TopGun Investments Teams of the Year, coming in seventh overall, and led the mid-sized managers category.

"Congratulations to the team on an outstanding year and the recognition from the industry to underscore it," said Werner Muehleemann. "Both as individuals and as a team, IIM lives our values of integrity, excellence and customer driven every day. The team continues to be focused and perform at a very high level and this recognition is a testament to their great work."

Our approach to investment management continues to reflect our objective of maximizing after-tax returns and outperforming our peers' investment returns over the long-term, while ensuring policyholder protection and maintaining strong regulatory capital levels. These accolades come on the heels of Intact being recognized as one of five 2018 Global TopGun insurance companies for transparency and financial reporting.

The Intact Investment Management is a fully in-house team of 55 individuals that manages nearly \$20 billion in assets. This has been their best year yet.
